

O-JETS
BUSINESS & LEISURE

Is time a luxury?
O-JETS. PRIVATE AND BUSINESS JETS.

About O-Jets

O-JETS is the result of a perfect blend between private aviation and corporate travel. Our goal is to offer not only the best possible solutions for business jets but also a perfect combination between private aircrafts and scheduled flights in order to achieve the perfect mix between comfort and cost.

O-JETS benefits from the in-house synergies with the well-established OSIRIS TRAVEL, offering 24 hour customer support.

The services we provide are not limited to the most common Business and Leisure trips but also to partner with aircraft operators who require worldwide crew positioning and also consultancy services.

PERSONAL AND EXCLUSIVE SERVICE

Each company, group or individual assumes specific needs. The O-JETS travel managers guarantee an exclusive and optimized service. Continuous trip monitoring and follow-up enable an immediate reaction in the event of changing travel parameters.

The operational experience of the O-JETS teams and international partners is a relevant asset providing immediate feedback with suitable solutions. Our goal is to provide service of excellence in private aviation.

Services

The range of the O-JETS services has been designed thinking in all types of needs, with special emphasis on business jets.

BUSINESS JETS - WORLDWIDE

Commonly known as the aircraft service that offers the highest level of comfort and flexibility, not only for corporate clients but also private individuals, O-Jets has a team ready to respond immediately to any enquiry received and in a short timeframe provide an indicative price for the required trip. Using an extensive list of partners, O-Jets will ensure the offer given will be the most adequate to the client's requirements. Our longtime experience in private aviation will consider all possible restrictions like aircraft performance, crew duty, weather and slots. Once an enquiry is received, we can support the client to find the best aircraft option and clarify any issues related to the requested trip without any sort of commitment.

CREW MANAGEMENT - 24 HOUR SERVICE

Knowing the critical timeframes for airline crew travel, our team works alongside with Osiris Travel to be able to respond 24/7 to all requests to position crews in any location, using both scheduled services and Business Jets. The consolidated experience in business aviation helps us understanding the specific needs of the airline considering not only the urgency to get the crew in a specific location but also having in mind the minimum rest in the options given before the crew starts its duty.

CHARTER FLIGHTS FOR GOVERNMENT, CORPORATE, LEISURE AND SPORTS EVENTS

O-Jets is not limited to the typical business jets. We can provide services using both medium and long-haul aircraft tailored for each request. Ranging from VIP Airliners with a typical 40+ passenger capacity to long-haul airliners, O-Jets can offer a variety of options of airplanes for any request. We also provide tailor-made trips like air cruises in dedicated aircraft with a variety of geographical options to set up the dream tour. For large delegations and sports trips, it is common to use a traditional airliner to achieve a lowest cost per seat.

CONCIERGE SERVICES

O-Jets offers complementary services ranging from the typical VIP ground transportation, hotel bookings, special catering requests, flower bouquets and chocolates to medical assistance. There is no request our team will leave unattended. We will make sure our clients get all desires fulfilled even if from a last minute phone call. To achieve this successfully we rely not only on our team but also our agents around the globe.

PRIVATE AIRCRAFT SALES MANAGEMENT

Our activity is purely commercial and the O-Jets team is able to market existing business jets that owners wish to charter to third party to generate additional revenue. This allows maximum exposure to the charter market thanks to our extensive sales network built throughout the years, cost savings on headcount for the aircraft owner if he does not wish to have an in-house sales department.

TECHNICAL AND LEGAL CONSULTANCY

O-Jets offers consultancy services for processes that require legal support generally related to lease contracts, compliance and insurance as well as technical and engineering for airlines and lessors (aircraft phase-in/out, shop visits, etc).

Concerning crew management solutions we provide a turnkey solution for crew rostering fully compliant with EASA rules. This is a perfect solution for small and midsize companies that prefer to subcontract this type of service to specialists.

O-Jets will provide the most adequate consultancy team for each need and a dedicated project manager.

EMS – EMERGENCY MEDICAL SERVICES

In case you or any friend or relative requires medical support for repatriation or transportation to a specific hospital or clinic, O-Jets can provide such service using a wide range of partnerships with both air ambulance and ground ambulance services.

For the air ambulance, a medical team will ensure the best possible care during the flight as well as the coordination with all other physicians both at origin and destination.

Feel free to call our team 24/7 for assistance.
